

	ResNet20			ResNet32		
Model	ACC	NLL	ECE	ACC	NLL	ECE
ELLA	92.5	0.233	0.009	93.5	0.215	0.008
Sampled LLA	92.5	0.231	0.006	93.5	0.217	0.008
VaLLA	92.6	0.228	0.007	93.5	0.211	0.007
NUQLS	92.5	0.228	0.006	93.4	0.215	0.007

Table 1: Extension of Table 5 in our paper. Purple figures correspond to the top result, while blue figures are the second-best result. Note that our performance on ResNet20 has increased slightly due to better tuning. When tuned for predictive ability, our method can match the performance of LLA variants.
